

## TTCA 2005-2006 Civil Engineering Award

**Portable and Self Contained Pre Stressed Concrete Bed**

Trinidad Contractors Limited was awarded the Trinidad and Tobago Contractors Association 2005-2006 Civil Engineering Award at the TTCA Gala Awards in November 2005.

The project that precipitated this award was a 'Portable and Self-Contained Pre-Stress Concrete Bed', capable of producing pre-stress elements at remote locations.

The judges proclaimed that it was ingenious, stating that the planning, R&D application, management and teamwork were nothing short of innovative.
